My dear Sam.

I am just in receipt of yr note from Rickard. I was very glad indeed to know that you were so far safely on yr way. I sincerely trust that you are now all right at Jamison. If you are I shall certainly feel that you did right in leaving when you did. I am getting along slowly but surely I think. I am eating well and doing gradually getting stronger but my pulse is 110 and that

seems to puzzle the Doctor.

I was surprised and delighted to meet Church this morn who hunted me up at the Restaurant having learned that I was here. I had no idea he was on the coast. He came in last night from Placer Co. where he has been for two weeks examining mines.

I have nothing to get from home, and what I learned from Anna's letter (mailed you two batches yesterday) to you is a great relief to me.

I shall look for mamma's letter via Tombstone.

With kind regards to
Geo. R. Scherer
